- Working with NWT on signage near the bridge making the no bike rule clear.
- Two recent successful balsam pulls. Wardens Barry and Alan requesting support with another balsam pull, to focus on the Beeston Lodge area. Date not yet set for this.
- Betty, Alan and Barry also volunteered to run a stall to raise funds for Spa Ponds at the Forest Town Village Market on Saturday 27<sup>th</sup> July (while Dowens are away on holiday)
- The Spa Ponds Presentation by Mercian Archaeological Services was followed by discussion of the future site management and the formation of Clipstone Park, Palace and Ponds Group to fulfil strategic and profile-raising functions (see notes overleaf).

## Some Notes from the discussion about the future management of Spa Ponds

- Andy Gaunt (Mercian Archaeological Services) confirmed that it would be reasonable to say that the 700 year anniversary of Spa Ponds would come at the end of 2016.
- Andy explained how non-invasive work could include field walking, desk-based research into environmental and historical records, including those archived by Nottinghamshire Wildlife Trust (NWT), and geophysical testing to help map the surface of the site.
- The idea of collating oral histories (memories of Spa/Gara Ponds) was also raised.
- Shlomo reported that, having spoken with NWT Estates Manager Charles Langtree, NWT is supportive of such activities.
- Shlomo also mentioned the LIDAR owned by the EA, and Andy suggested that if these could be accessed it would remove the need for at least some of the geophysical testing (and could reveal areas for other forms of testing).

### **Action: Shlomo to find out the resolution of the EA LIDAR data, and report back.**

- A potential funding application to the Castle Studies Trust was discussed, including how this would focus on Beeston Lodge and environs. This would require the support of the current landowner.
- Those present were supportive of the idea of forming a Clipstone Park, Palace and Ponds Group to fulfil strategic and profile-raising functions, without becoming an admin-heavy organisation. Shlomo used the term 'disorganisation' to describe this approach.
- Pauline gave an update on the progress of her book about Clipstone Camp (World War I).
- Andy agreed to produce a Factsheet that could be used to help raise the profile of the site, and thereby help raise funds for the purchase and management of the site.

### **Action: Andy to produce Facesheet (based on the presentation he delivered) and pass it on to Shlomo.**
